Lakewood, N. M., Jan. 20.—Countless thousands of small fish are dying in the Pecos river. The banks of the stream and the shallow places contain heaps upon heaps of dead little fish. The water is running in the river, and nobody seems to be able to give a satisfactory reason for the fish dying.

**The Markets****Wall Street**

(By Leased Wire to Evening Herald.) New York, Jan. 21.—Improving tendencies were evident today with the short interest an active factor in the advance. Buying was largely speculative, although there was an enlarged volume of commission business. Special stocks were influenced by favorable trade news. This was particularly true of the steel and railroad equipment groups. Many new high prices for the movement were reached. Bonds were strong.

The high price resulted for the New

York \$1,000,000 of 4½ per cent stimulated the general market. These bonds sold on the curb at 107-7-8. A sharp reaction in Reading checked the upward movement. When out-of-town buying orders began to come into the market as a result of the successful state bond issue, prices again advanced with a heavy demand for the western stocks.

The market closed strong. Distribution at the higher levels took off the edge of the advance, but the undertone was not impaired. Dealings in bonds and stocks were the largest of any day since the improvement began. Gains reached a point of more than 100 in eighty stocks.

The more important stocks closed as follows:

Amalgamated	76 1-2.
Sugar	196 1-2.
Atchison	83 3-4.
Reading	179 3-4.
Southern Pacific	98 3-8.
Union Pacific	148.
Steel	84 3-8.
Steel, preferred	110 1-8.

ULTIMATUM**

**Powers of Organized Baseball  
Notified that Signing of  
Players Already Under Con-

**BRENNAN-KILLIFER  
CENTERS OF STORM**

(By Leased Wire to Evening Herald.)

Chicago, Jan. 21.—The Federal League today notified the powers of organized baseball that their signing of players already under contract with the Federal will be fought in and out of the civil courts. This ultimatum was in the form of a telegram which President Gilmore of the Federal league sent to President Baker of the Philadelphia Nationals, declaring he would "protect" the contracts signed by both Brennan and Killifer.

The telegram read:

"We hereby officially notify you that Ad Brennan and William Killifer have signed contracts with Chicago Federals and have received advance money. Both our players and their contracts will be paid.

So far the Federal league claims not to have tried to sign a player already under contract with a club of another league. It has been working on the theory that a player's contract would hold good in a civil court, though it has not respected the reserve clause.

The Players' Fraternity will not remain on its membership rolls any one who breaks a contract, according to Otto Knabe, manager of the Baltimore Federals who arrived here today. This and the understanding that the American league will not tamper with signed players is believed to indicate that contracts generally will be respected.

**KILLIFER TAKES ACTION  
ON ADVICE OF COUNSEL**  
Philadelphia, Jan. 21.—William Killifer, the catcher who was reported to have signed with the Federal last night, signed a three year contract with the Philadelphia National league club, according to a statement given to him this afternoon by President Baker of the local organization.

President Baker's announcement followed the Federal league warning that major leagues must keep their hands off players signed by the new organization. Mr. Baker's statement follows:

Killifer signed his contract for three years with the Philadelphia National club after consulting his lawyer and his father, who is a prominent judge in Michigan. He was advised that the LaJoie decision covered his case exactly and that the Philadelphia National league club had prior claim to his services. He then returned to the Federal league the advance money he had received from it, notifying them of his action.

President Baker said the LaJoie decision was the strongest argument the National league had regarding contracts.

The LaJoie case was decided in the Pennsylvania supreme court in 1901. LaJoie, a member of the Philadelphia Nationals had signed to play with the Philadelphia Americans, and the Nationalists took the case into the county court, asking for an injunction restraining LaJoie from playing with the Americans. The court refused the injunction.
